Expert Witness Psychological Assessments & Reports

Our Services

Clear Psychology offers a wide range of psychological assessments conducted by experienced Chartered Clinical Psychologists.

Our expert witness reports are competitively priced and, on request, we can offer a bespoke service where specific psychological assessments are tailored to specialist instructions or individual requirements. For example, this might include: intellectual functioning, mental capacity or self-image profiles following injuries.

Clear Psychology

We are a leading independent, multidisciplinary psychological practice based in the South West covering the UK and Ireland. We have an established record in psychological assessment, psychological therapy and medico-legal reporting.

Clear Psychology consists of a professional team of Chartered Psychologists, BABCP-accredited Cognitive Behaviour Therapists (CBT), BACP-accredited counsellors and full-time support staff who are always happy to discuss medico-legal queries and are able to offer advice and guidance to anyone considering a referral.

Mental Capacity Assessments & Reports

Mental Capacity Assessments and Reports

Clear Psychology now offers a bespoke Mental Capacity Assessment Service. We understand that the assessment of mental capacity is a delicate and sensitive matter at the best of times. Having experienced clinical backgrounds means that all our staff are able to carry out assessments in a supportive and caring manner allaying any unnecessary fears the client may have.

Court of Protection Assessments (COP-3)

We also offer a sensitive assessment service in this area and are able to provide completed COP-3 assessments within 2-3 weeks of instruction.
